PROFESSIONAL OVERVIEW

Senior Product Designer with 8+ years of experience creating intuitive, scalable, and accessible digital products across enterprise, SaaS, web, and mobile platforms. Expertise in user research, information architecture, wireframing, prototyping, design systems, usability testing, accessibility standards, and responsive design. Proven ability to work closely with product, engineering, and business teams in Agile environments to transform complex requirements into seamless user experiences that enhance usability, engagement, and product performance.

TOTAL EXPERIENCE (8+ Years)

Organization	Role	Duration
Freelancer	Sr. Product Designer	May 2025 – Present
Sudrives Pvt. Ltd.	Sr. UI/UX Developer	Aug 2023 – May 2025
Sudrives Pvt. Ltd.	UI/UX Developer	Jul 2021 – Jul 2023
Activegraphy Value Design	UX & Software Engineer	May 2018 – May 2021
Activegraphy Value Design	Jr. UX & Software Engineer	May 2017 – May 2018

PROJECTS

1. Enterprise SaaS Web Applications – Sudrives Pvt. Ltd.

Role: Sr. UI/UX Developer

Technologies: Figma, Illustrator, Design Systems, Wireframing, Prototyping, User Flows, Responsive Design, WCAG Accessibility, React.js, Next.js, Redux, Tailwind CSS, Material UI, REST APIs, Git.

- **Designed 12+ enterprise dashboards, workflow screens, and data-heavy modules**, enabling users to complete business operations more efficiently while improving UI consistency across the platform.
- **Produced 20+ wire-frames and interactive prototypes**, reducing requirement ambiguities and shortening stakeholder approval cycles by 35%.
- **Established a reusable design system adopted across 4+ product modules**, reducing UI inconsistencies and accelerating feature delivery by 20%.
- **Reduced design-to-development effort by 30% through reusable UI components**, clear documentation, and handoff-ready design specifications.
- **Partnered with Product, Engineering, QA, and stakeholders in Agile sprints**, reducing design clarification cycles and accelerating sprint delivery.
- **Led weekly design reviews and UX audits**, reducing post-development UI revisions and improving implementation accuracy.
- **Mentored junior team members** on UI consistency, interaction design, component usage, and front-end implementation quality.
- Conducted stakeholder interviews.

2. Mobile-First Product Revamp – Sudrives Pvt. Ltd.

Role: UI/UX Developer

Technologies: Figma, Adobe XD, Photoshop, Illustrator, Wireframing, Prototyping, Mobile-First Design, Responsive Design, User Flows, Usability Testing, JavaScript, React.js, CSS3, Bootstrap, REST APIs, Agile.

- **Led the mobile-first redesign of core product modules**, increasing mobile usability while reducing navigation steps for key workflows.
- **Designed responsive experiences** across mobile, tablet, and desktop, ensuring a consistent user experience on multiple screen sizes.

- **Simplified complex user journeys**, reducing task completion time and improving product adoption among enterprise users.
- **Reduced prototype approval cycles by 40%** through rapid iterations, stakeholder demos, feedback sessions, and improved design communication.
- **Created personas.**
- **Improved frontend performance and user experience** by optimizing layouts, UI behavior, and rendering efficiency, reducing load times by 20%.
- **Collaborated with backend engineers and product teams** to ensure smooth API integration and accurate design implementation.
- **Delivered sprint-based UI improvements** aligned with Agile methodology, business goals, and user feedback.

3. Enterprise Web Platforms – Activegraphy Value Design

Role: UX & Software Engineer

Tools and Technologies: Figma, Illustrator, Wireframing, Prototyping, Information Architecture, User Flows, Usability Testing, Responsive Design, React.js, CSS3, Bootstrap, REST APIs

- **Designed and delivered user-friendly interfaces** for high-traffic enterprise web platforms, focusing on usability, accessibility, and responsive design.
- **Owned the complete UX lifecycle**—from discovery and wire-framing to prototyping and implementation—resulting in an 18% increase in user satisfaction.
- **Improved overall user satisfaction by 18%** through enhanced layout structure, simplified navigation, and improved interaction patterns.
- **Optimized on-boarding flows** by refining screen hierarchy, reducing friction points, and improving UI clarity, reducing user drop-offs by 12%.
- **Collaborated with cross-functional teams to transform business requirements** into intuitive digital products, reducing development rework through early design validation.

4. MVP Product Development & UX Optimization – Activegraphy Value Design

Role: Jr. UX & Software Engineer

Tools and Technologies: Figma, Wireframing, Prototyping, UX Research, User Flows, Information Architecture, Responsive Design, HTML5, CSS3, JavaScript, C#, Unity3D

- **Designed and built frontend interfaces for two MVP products**, ensuring the user experience aligned with business goals, product requirements, and target user needs.
- **Created user flows, wireframes, responsive layouts, and interactive UI screens** to support early-stage product validation.
- **Supported UX research activities** by gathering feedback, reviewing user behavior, and applying insights to improve interface decisions.
- **Worked on Unity3D-based** interface elements where required, combining visual design with interactive product experiences.

TECHNICAL SKILLS

UX: Figma, Design Systems, Wireframing, Prototyping, Usability Testing, Accessibility (WCAG)

UI Frameworks: Tailwind CSS, Bootstrap, Material UI, Styled Components

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux

Backend: Node.js, Express.js, REST APIs, JSON, Axios, Postman

Tools: Vite, Webpack, NPM, Git, GitHub, WordPress

Methodologies: Agile, Responsive Design, Mobile-First, Cross-Browser Compatibility, SEO

ACADEMICS

Bachelor of Engineering in Information Technology – Savitribai Phule Pune University

CERTIFICATIONS

Digital Skills: User Experience (Accenture)

Introduction to Generative AI Studio

AI Agents for Beginners

Startup School: Prompt to Prototype

React JS (Scaler)
